

ANeT 4.0

**"Technology and Innovation
for Developing Ant Researches
and Utilizations"**

11th – 15th November 2019

at Bangkok, Thailand

Second Announcement

The 12th ANeT International Conference 2019 (ANeT 4.0)

Event outline:

ANeT is a network of myrmecologists which established for the first time at the faculty of Forestry Kasetsart University Thailand in 1999. The network has been 20 years that is a teenager, so it will continually grow up.

In year 2019, the faculty of forestry Kasetsart University as the representative of Thailand, will be the host of “The 12th ANeT International Conference 2019” will be held during 11th – 15th November 2019 in Bangkok, Thailand, in the theme of “ANeT 4.0 – Technology and Innovation for Developing Ant Researches and Utilizations”.

The faculty of forestry, Kasetsart University has hosted ANeT in 1999 and 2004. We are delighted to be the host this time and hope there will be many myrmecologists and researchers participate in this meeting.

Objectives:

1. To encourage myrmecologists and researchers exchanging in the field of entomology.
2. To provide myrmecologists and researchers with the opportunity to foster friendships and networking within entomology.
3. To develop the strong, stable, and sustainable ANeT for the ANeT 4.0, and to be not leaving anyone behind (strong together).
